NOW'S THE TIME TO PLANT BULBS FOR SPRING BLOOM

Did the first blush of Spring make your home a fairyland of Scarlet, Pink, Yellow, Apricot, Violet, Salmon . . . and just about every other color in the rainbow? If not, now's the time to make sure that next Spring will bring forth a myriad of colorful bloom.

It's easy, it's inexpensive, and it's fun—just plant bulbs NOW. There's really very little to know. Choose the bulbs that fill your needs . . . but don't be "skimpy" . . . nothing is as pretty as a luscious display of flowering bulbs. A skimpy showing is little better than no showing at all.

Besides beds, we suggest that you use bulbs in your foundation plantings, along fences, under trees, and even scattered in your lawn. The newer "small bulbs" blend beautifully in any setting.

LISTED ARE A FEW OF THE VARIETIES THAT WE FEATURE AT THE NURSERY

HUNDREDS OF OTHER VARIETIES ARE READY FOR IMMEDIATE PLANTING

WHY PAY US TO GROW YOUR TREES AND EVERGREENS

... or why pay for an extra years growth that you can have FREE if you plant now? There is no reason.

If you plant one tree now, and a specimen one year older next Spring . . . they both will be the same size next fall. WHY? Because trees, evergreens, shrubs and plants that are planted in fall repair any root damage immediately, and regain active growth in the Spring. Spring planting sets the tree back a full year, since root growth must take place during the Spring and Summer . . . and there is little if any time for top growth. DON'T PAY US FOR THE GROWTH YOU CAN HAVE ON YOUR OWN PROPERTY . . . PLANT NOW . . . get a full year's extra growth FREE!

plan next year's garden with our LANDSCAPE SPECIALISTS

As a valued customer, you know that we feature only the finest in Trees, Shrubs, Bulbs, Seeds, Fertilizers, Chemicals and Plants . . . and you know that our prices are moderate for the quality and varieties we feature.

BUT, DO YOU KNOW ABOUT OUR LANDSCAPING DEPARTMENT? Our University trained specialists are at

your disposal. They'll be pleased to spend a few moments discussing the correct trees or shrubs to solve your landscape problem . . . or to plan and draw up a complete landscape plan to fulfill your eventual requirements. In the long run, it is more economical, and far more rewarding to start with a professionally drawn landscape plan—and either complete it immediately—or do it over a number of years.

VISIT WITH OUR LANDSCAPE SPECIALISTS...you'll be so glad you did!

WHITE TRIUMPHATOR

DAFFODILS

Yellow, White and Orange in just about any combination. Plant 'em by the tubful! There's nothing lovelier, or Springier, than a field or bed of Daffodils! Mix varieties or use just one . . . it makes no difference . . . but use plenty.

**PERKY
LITTLE
BULBS**

You've probably seen and admired their charming little flowers . . . but never realized that they were bulbs! They can be grown under trees, among evergreens, through groundcover, in naturalized settings, or in a rockery.

Little bulbs are gaining in popularity every year . . . and with good reason. Horticulturally, they fill a distinct need, since they will bloom in shady or sunny areas—giving life and color at a time of year, and in areas that cannot be brightened in other manners.

**A COMPLETE SELECTION OF LITTLE
BULBS IS AVAILABLE AT
THE NURSERY**

CANDY STRIPE TULIP

Cheerful miniature tulip, 8 to 10 inches high. Grow in ground cover, shade, etc.

CHINODOXA

Glory of the Snow. Early bloomer. Delightful dwarf, 6 inches tall. Blue and White.

CROCUS

Everybody's favorite! Plant now for bloom in late Winter or early Spring. Often shows right through the snow. Use in quantity within foundation plantings, under trees, or right in lawn!

NOW'S THE TIME TO UPGRADE OR PLANT YOUR LAWN

Why do it the hard way . . . when you can do it nature's way?

Fall is the time that nature re-seeds your lawn . . . cool nights combined with warmish days provides the best environment for seed germination. Our own brand of seeds, fertilizer and chemicals have been specially formulated for optimum growth in this area . . . that's why hundreds of tried-and-true gardeners will accept nothing else. We suggest you try them . . . and you'll be more than pleased at the moderate prices.
